

CLASSES START IN MARCH 2022

Are you looking for a career in the
Advanced Manufacturing industry?

No prior experience required

CNC Technical Solutions offers a wide variety of courses designed to teach introductory through advanced concepts in Industrial Electronics, Programmable Logic Controls (PLC's) and Motor Controls. These classes prepare students for a career in the world of Advanced Manufacturing-Maintenance and related Skilled Trades. If you interested in a career in Advanced Manufacturing, CNCTS's Phase 1 Industrial Electronics may be the place to start.

Phase 1 Industrial Electronics is an instructor led class designed to teach Electrical and Electronic theory and practical applications. Students work in a classroom/lab setting and learn electrical and electronic fundamentals using a variety of meters and testing equipment. This class will combine theoretical and lab modules in building fundamental electrical and troubleshooting skills. This class will run for a total combined 136 classroom and lab hours.

Requirements:

- ◆ Must be 18 years or older
- ◆ Must provide your own transportation
- ◆ Attend class 2 days per week (weekdays)
- ◆ Potential paid work experience/job placement

For more information about this program or to register for March classes, please contact John Slisz (716) 200-8110 or email john.slisz@cncts.com
